Master of Business Administration

College Station, Texas
August 2027

Texas A&M University, College of Engineering
Bachelor of Science in Civil Engineering
GPA: 3.59/4.0, Cum Laude

College Station, Texas
May 2026

EXPERIENCE

LJA Engineering, Inc.

Katy, Texas

Land Development Intern

May 2026 – July 2026

- Assumed responsibility of a forty-acre residential land development project impacted by design errors and staff turnover by rebuilding grading, drainage, and utility designs to restore project accuracy and timeline.
- Performed feasibility studies, plan production, drainage calculations, engineering analyses, quantity takeoffs, and cost estimates to support design optimization and cost-effective decision-making.

Cobb, Fendley & Associates

Houston, Texas

Municipal Engineering Intern

June 2025 – August 2025

- Mentored incoming interns on office procedures and project workflows as returning intern, accelerating onboarding and improving team productivity.
- Generated detailed drawings, plans and profiles, specification packages, and cost estimates supporting public utility, drainage, and roadway rehabilitation projects.
- Engaged in construction meetings, site visits, contractor submittal reviews, and pay applications to support budget accuracy and schedule adherence on multimillion-dollar infrastructure projects.

Municipal Engineering and Utility Coordination Intern

June 2024 – August 2024

- Identified and resolved utility conflicts through multi-agency coordination, reducing project delays and strengthening inter-agency collaboration.

ALJ Lindsey, LLC.

Tomball, Texas

Site Development Intern

May 2023 – August 2023

- Produced detailed civil design plans for five commercial site development projects supporting complete design packages.
- Verified design accuracy and implemented design corrections through quality control checks and redline corrections.

LEADERSHIP & INVOLVEMENT

Civil and Environmental Engineering Ambassador

College Station, Texas

Events Executive, Member since August 2024

April 2025 – April 2026

- Represented the Zachry Department of Civil and Environmental Engineering at student fairs, donor receptions, and university panels, strengthening relationships between students, alumni, and industry partners.
- Served as a liaison between department leadership and the student body by leading outreach and volunteer initiatives that aligned student needs with department objectives.
- Expanded the role's scope by introducing new programming and optimizing resources to increase events and membership.
- Redesigned "DI Saturday" and "Company Thursday" initiatives by implementing engagement-focused formats that were adopted by executive leadership to increase department visibility.

Kemp Pals Mentorship Program

Bryan, Texas

3rd Grade Mentor

September 2023 – Present

- Provide weekly mentorship at Kemp-Carver Elementary School through literacy, math, and standardized test preparation.
- Foster student confidence and academic growth by building meaningful relationships and serving as a faithful and consistent mentor each week of the school year.
