(512)633-5576 | grichey@tamu.edu | linkedin.com/in/graysonrichey

## EDUCATION

**Texas A&M University, Mays Business School**  
*Master of Business Administration*

College Station, Texas  
December 2025

**University of Oklahoma**  
*Bachelor of Marketing and Supply Chain Management*

Norman, Oklahoma  
December 2017

## EXPERIENCE

### Casino Cash Trac

Tulsa, Oklahoma

*Business Consultant*

November 2021 – November 2022

- Directed meetings with C-suite executives and senior stakeholders to guide and prepare them for the digital audit transformation I designed
- Managed the installation and administration of financial controls and security software, including project installation timelines and training resulting in client hour savings of up to 70%
- Led an internal team of accounting and technical focused colleagues in designing thousands of unique and optimal client centered auditing software solutions
- Influenced clients to improve existing processes and procedures that allow for more secure delivery of controlled inventory and high value assets, in compliance with state and federal regulations
- Reconciled vault cash accounts totaling up to \$24M, transitioning clients from paper tracking processes to a fully digital, paperless system
- Held twice weekly discovery, informational, and training meetings with client stakeholders to align new processes and procedures with each client's unique operations requirements
- Built digital tracking and audit programs to improve clients cash tracking and audit operations
- Independently managed multiple projects in a fast-paced environment, adhering to tight deadlines and achieving project completion within timelines, with a 100% on-time delivery rate

### Dell Technologies Austin, Texas

February 2018 – November 2022

*Global Commodity/Supply Manager, ISG Networking Procurement*

March 2019 – November 2021

- Oversaw global supply of critical components, ensuring minimal shortages over 110+ commodity portfolio
- Managed a multimillion-dollar spend, ensuring efficient allocation of resources and adherence to financial targets while also achieving quarter over quarter cost savings between \$500k and \$2M
- Negotiated contracts with one of two industry leading manufacturers to secure guaranteed shipments and put rules in place to dramatically reduce backlog shipments
- Utilized data analytics and forecasting models to anticipate supply chain disruptions and mitigate risks

### Cost and Continuity of Supply Analyst, ISG Networking Procurement

February 2018 – March 2019

- Tracked the incremental changes in cost of parts purchased from suppliers over a 300+ component portfolio
- Investigated teams internal spend of over \$100M and 300+ components and to identify opportunities for new cost savings for team members to pursue

## LEADERSHIP & INVOLVEMENT

### Alan Academy

Bryan, Texas

*Assistant Baseball & Football Coach*

July 2023 – May 2024

- Created a unique statistical tracking program using VBA, SQL, Excel, and Access to allow for live in game team and player statistical updates and easily accessible game and season statistic for coaches and players
