EDUCATION

Texas A&M University, Mays Business School
Master of Business Administration

College Station, TX
August 2027

Texas A&M University
Bachelor of Science in Mechanical Engineering
GPA: 3.741/4.0
Honors: Magna Cum Laude

College Station, TX
December 2025

EXPERIENCE

Murphy Oil Corporation

Houston, TX

Offshore Projects and Developments Intern

May 2026 – July 2026

- Reinforced early-stage offshore subsea development decisions by identifying infrastructure constraints and evaluating equipment compatibility for potential field developments
- Boosted Projects and Developments team efficiency by producing decision matrices and leading presentations to communicate project risks and development strategies
- Enhanced offshore operational efficiency by coordinating simultaneous operations between offshore production platform personnel and ROV crews, providing direction during subsea integrity assessments

Valaris Limited

Houston, TX

Offshore Operations Intern

May 2025 – August 2025

- Improved efficiency of lifting operations by supporting crane crews in rigging tools, handling drill pipe and riser, and reducing downtime during critical operations
- Developed foundational knowledge of offshore drilling procedures and vessel operations through hands-on exposure and crewmember shadowing

Patterson UTI Drilling

Houston, TX

Project Engineering and Asset Management Intern

May 2024 – August 2024

- Increased visibility into resource allocation by maintaining asset records and tracking project expenses, supporting the Asset Management team's budget performance
- Improved rig safety compliance by preparing technical documents for rig upgrade packages, enabling faster execution of required modifications

Drilling Rig Floor-Hand Intern

May 2023 – August 2023

- Strengthened safety and operational efficiency during drilling operations by distributing workload and ensuring controlled execution during high-risk tasks
- Demonstrated initiative and collaborative skills to identify and resolve equipment issues during critical onshore drilling operations

INVOLVEMENT

Capital Men's Society

College Station, TX

Member

January 2024 – December 2025

- Served on the Chili Fest committee, supporting planning and execution of a large-scale charitable event
- Fostered growth through recruitment and social events to build connections, strengthening the organization's social network

SKILLS & ACTIVITIES

Technical Skills: SolidWorks, Microsoft Suite

Activities: Society of Petroleum Engineers Member

Certifications & Training: THUET
